Testimonials

"While attending the GRAA Boot Camp, I heard from several presenters that spoke on areas within my specialty and not related to my interests. I learned more and have implemented new out-of-the-box ideas that I previously thought would not apply to me – I was wrong! In fact, one idea has generated over \$8,000 in new revenue for the course. Thanks for putting on the Boot Camp. I would highly recommend and would attend again."

– Paul Johnson, PGA Head Golf Professional

"The best part of GRAA for me has been the best practices. We feel our range is very important, as it is the first part of the course our members and guests see. I enjoy seeing what other facilities do, and use their best practices to ensure that our experience exceeds expectations"

"We examine every piece that comes from the GRAA, whether it is applicable to our business and what can we expect to increase by putting into effect. We focus mostly on the instructional end, so while we already implement many of the strategies in Golf Range Magazine, occasionally we find something a little different and give it a try like last year. We have built a short 6-hole course on the range, along with a new grass only hitting area and a short game and wedge skill area. We have also built 17 new tees on the golf course to offer a short course loop or route in a Tee it Forward effort.
